

Limited Lifetime Warranty

Undercover Systems of Colorado will warranty your patented Clearspan Underdeck System (System) against leaks, corrosion, warping, and paint failure for as long as you own your home. This warranty does not cover damage due to homeowner negligence, acts of God or any other Natural Disaster. Any leaks outside the System are not the responsibility of Undercover Systems of Colorado. Such leaks include, but are not limited to, improper deck flashing, System clogging due to excessive debris, and seepage through stone, brick, or other porous/uneven surfaces. Soffit coverings that are not contained within a gutter system are considered “outside the System” and are not covered under the warranty. Additionally, any alterations or modifications to the System by the homeowner without consent from Undercover Systems of Colorado may void warranty.

Transfer of Limited Lifetime Warranty

Undercover Systems of Colorado may extend the Limited Lifetime Warranty to a new homeowner upon inspection of the System.
